Zavy, M.T., *see* Geisert, R.D. et al.

SUBJECT INDEX

Acrosome reaction
Intracellular calcium in hamster spermatozoa in testis, epididymis and during the acrosome reaction 145
Behaviour
Effect of collection procedure on the sperm output and copulatory behavior of AI stud boars 277
Breeding
Exploiting new technologies in animal breeding, genetic developments (book review) 155
Buffalo
Ovarian and uterine responses in relation to norgestomet-PMSG treatment in the true anoestrous buffalo 71
Calcium
Intracellular calcium in hamster spermatozoa in testis, epididymis and during the acrosome reaction 145
Cattle
Characterization of short luteal cycles in the early post-partum period and their relation to reproductive performance of dairy cows 215
Characterization of uterine environment during early conceptus expansion in the bovine .. 11
Dystocia, pelvic, and cervical dilation in beef heifers after induction of parturition with relaxin combined with cloprostenol or dexamethasone 237
Early cycle FSH-p priming as a prelude to superovulating gonadotropin administration in ewes and heifers 97
Effect of protein intake on body weight, scrotal circumference and semen production of Bunaji bulls and their Friesian crosses in Nigeria 1
Epididymal sperm reserves in 12-month-old Angus and Hereford bulls: effects of bull strain plus dietary energy 169
Fertilization of bovine oocytes in vitro: effect of different sources of gametes on fertilization rate and frequency of fertilization anomalies 207
Follicular populations during the estrous cycle in heifers. III. Time of selection of the ovulatory follicle 81
Influence of parasitic infestations on metabolism, puberty and first mating performance of heifers grazing in a tropical area 177
Levels of LH, progesterone and estradiol-17β during natural and $PGF_{2\alpha}$-induced estrus in Indobrazil and Brown Swiss cows in the tropics 199
Prepartum and postpartum glycogen accumulation in bovine uterine arteries 191
Reproduction in cattle (book review) 156
Sensitive enzyme immunoassay of progesterone in skim milk using second-antibody technique 225
Cervical dilatation
Dystocia, pelvic and cervical dilatation in beef heifers after induction of parturition with relaxin combined with cloprostenol or dexamethasone 237
Circadian rhythm
Influence of varying intensities of supplemental lighting during decreasing daylengths on puberty in gilts 295
Cloprostenol
Dystocia, pelvic and cervical dilatation in beef heifers after induction of parturition with relaxin combined with cloprostenol or dexamethasone 237

Cold shock
Quantitative ultrastructural assessment of head membrane damage in boar spermatozoa subjected to varying degrees of cold shock 265
Conceptus
Characterization of the uterine environment during early conceptus expansion in the bovine 11
Effect of exogeneous estradiol on mobility and fixation of the early equine conceptus 159
Dexamethasone
Dystocia, pelvic and cervical dilatation in beef heifers after induction of parturition with relaxin combined with cloprostenol or dexamethasone 237
Dystocia
Dystocia, pelvic and cervical dilatation in beef heifers after induction of parturition with relaxin combined with cloprostenol or dexamethasone 237
Embryo preservation
Survival of goat embryos frozen and thawed rapidly 261
Endocrinology, male
Use of hypothalamic releasing hormones to evaluate the reproductive endocrine status of rams 249
Endocrinology, female
Characterization of the uterine environment during early conceptus expansion in the bovine 11
Early cycle FSH-p priming as a prelude to superovulating gonadotropin administration in ewes and heifers 97
Effect of exogenous estradiol on mobility and fixation of the early equine conceptus 159
Effect of fetal hypophysectomy and fetal death in gilts with small litters on concentrations of relaxin, progesterone and estradiol-17β 107
Levels of LH, progesterone and estradiol-17β during natural $PGF_{2\alpha}$-induced estrus in Indobrazil and Brown Swiss cows in the tropics 199
Ovarian and uterine responses in relation to norgestomet-PMSG treatment in the true anoestrous buffalo 71
Peri-pubertal ovulatory events and progesterone profiles of Javanese thin-tail sheep 53
Plasma follicle stimulating hormone, ovulation rate and fertility in Merino ewes treated with bovine follicular fluid 27
Sensitive enzyme immunoassay of progesterone in skim milk using second-antibody technique 225
Endometrium
Characterization of the uterine environment during early conceptus expansion in the bovine 11
Epididymis
Epididymal sperm reserves in 12-month-old Angus and Hereford bulls: effects of bull strain plus dietary energy 169
Intracellular calcium in hamster spermatozoa in testis, epididymis and during the acrosome reaction 145
Fatty acid composition
Effects of zinc deficiency on prostaglandins and fatty acid composition of the testes of rabbits 303
Feeding and nutrition
Effect of protein intake on body weight, scrotal circumference and semen production of Bunaji bulls and their Friesian crosses in Nigeria 1
Epididymal sperm reserves in 12-month-old Angus and Hereford bulls: effects of bull strain plus dietary energy 169

Fertility, female
Plasma follicle stimulating hormone, ovulation rate and fertility in Merino ewes treated with bovine follicular fluid 27
Fertilization
Fertilization of bovine oocytes in vitro: effect of different sources of gametes on fertilization rate and frequency of fertilization anomalies 207
Fetus
The effect of fetal hypophysectomy and fetal death in gilts with small litters on concentrations of relaxin, progesterone and estradiol-17β 107
Follicle
Biology of ovarian follicles in mammals (book review) 311
Follicular populations during the estrous cycle in heifers. III. Time of selection of the ovulatory follicle 81
The plasminogen activator activity is markedly increased mainly at the area of the rupture of the follicular wall at the time of ovulation 285
Follicular fluid
Plasma follicle stimulating hormone, ovulation rate and fertility in Merino ewes treated with bovine follicular fluid 27
FSH
Early cycle FSH-p priming as a prelude to superovulating gonadotropin administration in ewes and heifers 97
Genetics
Exploiting new technologies in animal breeding, genetic developments (book review) 155
Glycogen
Prepartum and postpartum glycogen accumulation in bovine uterine arteries 191
GnRH
Use of hypothalamic releasing hormones to evaluate the reproductive endocrine status of rams 249
Goat
Survival of goat embryos frozen and thawed rapidly 261
Gonadotropins
Early cycle FSH-p priming as a prelude to superovulating gonadotropin administration in ewes and heifers 97
Hamster
Intracellular calcium in hamster spermatozoa in testis, epididymis and during the acrosome reaction 145
Histochemistry
Prepartum and postpartum glycogen accumulation in bovine uterine arteries 191
Horse
Effect of exogenous estradiol on mobility and fixation of the early equine conceptus 159
Hypophysis
The effect of fetal hypophysectomy and fetal death in gilts with small litters on concentrations of relaxin, progesterone and estradiol-17β 107
LH
Levels of LH, progesterone and estradiol-17β during natural and $PGF_{2\alpha}$-induced estrus in Indobrazil and Brown Swiss cows in the tropics 199
Use of hypothalamic releasing hormones to evaluate the reproductive endocrine status of rams 249
Mating performance
The influence of parasitic infestations on metabolism, puberty and first mating performance of heifers grazing in a tropical area 177

Milk
Sensitive enzyme immunoassay of progesterone in skim milk using second-antibody technique 225
Mink
Breeding season and pregnancy-associated increase in plasma levels of fibrin/fibrinogen in the mink 135
Mortality, fetal
The effect of fetal hypophysectomy and fetal death in gilts with small litters on concentrations of relaxin, progesterone and estradiol-17β 107
Norgestomet
Ovarian and uterine responses in relation to norgestomet-PMSG treatment in the true anoestrous buffalo 71
Oestradiol-17β
Effect of exogenous estradiol on mobility and fixation of the early equine conceptus 159
Effect of fetal hypophysectomy and fetal death in gilts with small litters on concentrations of relaxin, progesterone and estradiol-17β 107
Levels of LH, progesterone and estradiol-17β during natural and $PGF_{2\alpha}$-induced estrus in Indobrazil and Brown Swiss cows in the tropics 199
Oestrus
Levels of LH, progesterone and estradiol-17β during natural and $PGF_{2\alpha}$-induced estrus in Indobrazil and Brown Swiss cows in the tropics 199
Year and season effects on oestrus and ovarian activity in ewes of different breeds and crosses 39
Oestrous cycle
Characterization of short luteal cycles in the early post-partum period and their relation to reproductive performance of dairy cows 215
Follicular populations during the estrous cycle in heifers. III. Time of selection of the ovulatory follicle 81
Oestrous cycle dynamics in peri-pubertal and mature Javanese thin-tail sheep 61
Oocytes
Fertilization of bovine oocytes in vitro: effect of different sources of gametes on fertilization rate and frequency of fertilization anomalies 207
Ovarian activity
Ovarian and uterine responses in relation to norgestomet-PMSG treatment in the true anoestrous buffalo 71
Peri-pubertal ovulatory events and progesterone profiles of Javanese thin-tail sheep 53
Year and season effects on oestrus and ovarian activity in ewes of different breeds and crosses 39
Ovulation
Plasma follicle stimulating hormone, ovulation rate and fertility in Merino ewes treated with bovine follicular fluid 27
The plasminogen activator activity is markedly increased mainly at the area of the rupture of the follicular wall at the time of ovulation 285
Parasitology
The influence of parasitic infestations on metabolism, puberty and first mating performance of heifers grazing in a tropical area 177
Parturition induction
Dystocia, pelvic and cervical dilatation in beef heifers after induction of parturition with relaxin combined with cloprostenol or dexamethasone 237
Pelvic dilatation
Dystocia, pelvic and cervical dilatation in beef heifers after induction of parturition with relaxin combined with cloprostenol or dexamethasone 237

$PGF_{2\alpha}$
Levels of LH, progesterone and estradiol-17β during natural and $PGF_{2\alpha}$-induced estrus in Indobrazil and Brown Swiss cows in the tropics 199
Pheromones
The involvement of boar submaxillary salivary gland secretions in boar-induced precocious puberty attainment in the gilt 125
Pig
Effect of collection procedure on the sperm output and copulatory behavior of AI stud boars 277
Effect of fetal hypophysectomy and fetal death in gilts with small litters on concentrations of relaxin, progesterone and estradiol-17β 107
Influence of varying intensities of supplemental lighting during decreasing daylengths on puberty in gilts 295
Involvement of boar submaxillary salivary gland secretions in boar-induced precocious puberty attainment in the gilt 125
Quantitative ultrastructural assessment of head membrane damage in boar spermatozoa subjected to varying degrees of cold shock 261
Plasma follicle stimulating hormone
Plasma follicle stimulating hormone, ovulation rate and fertility in Merino ewes treated with bovine follicular fluid 27
Plasminogen activator
The plasminogen activator activity is markedly increased mainly at the area of the rupture of the follicular wall at the time of ovulation 285
PMSG
Ovarian and uterine responses in relation to norgestomet-PMSG treatment in the true anoestrous buffalo 71
Pregnancy detection
Breeding season and pregnancy-associated increase in plasma levels of fibrin/fibrinogen in the mink 135
Progesterone
The effect of fetal hypophysectomy and fetal death in gilts with small litters on concentrations of relaxin, progesterone and estradiol-17β 107
Progesterone
Levels of LH, progesterone and estradiol-17β during natural and $PGF_{2\alpha}$-induced estrus in Indobrazil and Brown Swiss cows in the tropics 199
Peri-pubertal ovulatory events and progesterone profiles of Javanese thin-tail sheep 53
Sensitive enzyme immunoassay of progesterone in skim milk using second-antibody technique 225
Prolactin
Use of hypothalamic releasing hormones to evaluate the reproductive endocrine status of rams 249
Prostaglandins
Effects of zinc deficiency on prostaglandins and fatty acid composition of the testes of rabbits 303
Puberty
Influence of parasitic infestations on metabolism, puberty and first mating performance of heifers grazing in a tropical area 177
Influence of varying intensities of supplemental lighting during decreasing daylengths on puberty in gilts 295
Involvement of boar submaxillary salivary gland secretions in boar-induced precocious puberty attainment in the gilt 125

Oestrous cycle dynamics in peri-pubertal and mature Javanese thin-tail sheep 61
Peri-pubertal ovulatory events and progesterone profiles of Javanese thin-tail sheep 53
Rabbit
Effects of zinc deficiency on prostaglandins and fatty acid composition of the testes of rabbits 303
Relaxin
The effect of fetal hypophysectomy and fetal death in gilts with small litters on concentrations of relaxin, progesterone and estradiol-17β 107
Reproduction, general
Vertebrate reproduction: a textbook (book review) 155
Reproductive performance
Characterization of short luteal cycles in the early post-partum period and their relation to reproductive performance of dairy cows 215
Scrotal circumference
The effect of protein intake on body weight, scrotal circumference and semen production of Bunaji bulls and their Friesian crosses in Nigeria 1
Seasonal variation
Year and season effects on oestrus and ovarian activity in ewes of different breeds and crosses 39
Semen production
The effect of protein intake on body weight, scrotal circumference and semen production of Bunaji bulls and their Friesian crosses in Nigeria 1
Sheep
Early cycle FSH-p priming as a prelude to superovulating gonadotropin administration in ewes and heifers 97
Oestrous cycle dynamics in peri-pubertal and mature Javanese thin-tail sheep 61
Peri-pubertal ovulatory events and progesterone profiles of Javanese thin-tail sheep 53
Plasma follicle stimulating hormone, ovulation rate and fertility in Merino ewes treated with bovine follicular fluid 27
Use of hypothalamic releasing hormones to evaluate the reproductive endocrine status of rams 249
Year and season effects on oestrus and ovarian activity in ewes of different breeds and crosses 39
Sperm output
The effect of collection procedure on the sperm output and copulatory behavior of AI stud boars 277
Spermatozoa
Epididymal sperm reserves in 12-month-old Angus and Hereford bulls: effects of bull strain plus dietary energy 169
Intracellular calcium in hamster spermatozoa in testis, epididymis and during the acrosome reaction 145
Quantitative ultrastructural assessment of head membrane damage in boar spermatozoa subjected to varying degrees of cold shock 265
Superovulation
Early cycle FSH-p priming as a prelude to superovulating gonadotropin administration in ewes and heifers 97
Testis
Effects of zinc deficiency on prostaglandins and fatty acid composition of the testes of rabbits 303
Intracellular calcium in hamster spermatozoa in testis, epididymis and during the acrosome reaction 145

Testosterone
Use of hypothalamic releasing hormones to evaluate the reproductive endocrine status of rams 249
TRH
Use of hypothalamic releasing hormones to evaluate the reproductive endocrine status of rams 249
Uterus
Characterization of the uterine environment during early conceptus expansion in the bovine 11
Ovarian and uterine responses in relation to norgestomet-PMSG treatment in the true anoestrous buffalo 71
Prepartum and postpartum glycogen accumulation in bovine uterine arteries 191
Zinc
Effects of zinc deficiency on prostaglandins and fatty acid composition of the testes of rabbits 303
